Jacques Cartier Bridge: Repair work on south approach viaducts

Longueuil, June 29, 2017 – The Jacques Cartier and Champlain Bridges Incorporated (JCCBI) would like to advise road users that major repair work on two viaducts will be conducted on the south approach of the Jacques Cartier Bridge from July to September 2017. To optimize the work and minimize the impact on users and residents, the exit ramp from the Jacques Cartier Bridge to Saint-Laurent Boulevard West in Longueuil will be closed for eight weeks starting Sunday, July 9, at 10:00 p.m. A detour via the local network will be set up. Three weekend work blitzes on the viaducts will also be carried out in August and September for concrete repairs and replacements of joints and membranes.

This work is part of the major repairs currently being done to extend the service life of the Jacques Cartier Bridge and its approach structures. These planned closures are required to ensure user and worker safety during the work. JCCBI recommends that users plan their trips accordingly.

Note that this work could be postponed because of unsuitable weather conditions. Follow us on Twitter @pontJCBridge, sign up for our text alerts, or visit our website at www.JacquesCartierChamplain.ca for more information.

About JCCBI

As a manager of important infrastructure, The Jacques Cartier and Champlain Bridges Incorporated is a Crown corporation established in 1978 that is responsible for the Jacques Cartier Bridge, the Champlain Bridge, the Champlain Bridge Ice Control Structure, the Île des Sœurs Bypass Bridge, the federal sections of Bonaventure Expressway and the Honoré Mercier Bridge, as well as the Melocheville Tunnel. The Corporation manages, maintains, and repairs these important Greater Montreal structures to ensure the safe passage of thousands of users every day. It also ensures that these critical structures remain safe, fully functional and aesthetically pleasing both today and in the future. www.JacquesCartierChamplain.ca
