SUBSECTION 6.11 GENERAL

6.11.1 SCOPE

- 6.11.1.1 Section 6 *Standard Technical Conditions* of the tender document consolidates some of the **Owner's** standard technical requirements that are an integral part of this Contract. All of the technical requirements set out in this Section shall be reviewed carefully in relation to the specific technical requirements of the Contract indicated on the drawings and in Section 4 *Special Technical Conditions* of the specifications.
- 6.11.1.2 In the event of a discrepancy or conflict between the provisions of Section 6 *Standard Technical Conditions* and the provisions of Section 4 *Special Technical Conditions*, the requirements of Section 4 shall prevail as prescribed in clause 5.6 *Order of Precedence*.
- 6.11.1.3 The **Owner's** standard technical requirements may be amended from time to time. Consequently, the **Contractor** must carefully review the standard technical requirements included in these specifications, even if the **Contractor** is already familiar with the **Owner's** standard technical requirements.

6.11.2 GENERAL REQUIREMENTS

- 6.11.2.1 Whenever it carries out work, the **Contractor** shall ensure the structural integrity of any structures affected by the work.
- 6.11.2.2 The **Contractor** alone shall be responsible for the work methods and sequences it chooses, including all calculations, if it draws in whole or in part on the methods and sequences illustrated on the drawings in this Contract.
- 6.11.2.3 The **Contractor** shall at all times validate all dimensions, measurements and information needed to ensure the precision and accuracy of its work, whether such dimensions, measurements and information are taken from the reference drawings or the Contract drawings.

6.11.3 REFERENCE STANDARDS

- 6.11.3.1 For the execution of the work and notwithstanding the version of the standards prescribed in this Section 6 *Standard Technical Conditions*, but subject to Section 4 *Special Technical Conditions*, the applicable versions of the standards will be those in effect on the date of the Call for Tenders. However, should a new version of a standard be published after the date of the Call for Tenders, the parties may agree to apply this new standard. The **Contractor** shall notify the Engineer that it intends on using a new version of a standard at least fourteen (14) days prior to the start of manufacturing works and / or on site works and shall obtain the latter's authorization before starting said works.
