PRESS RELEASE
For immediate release

Champlain Bridge Ice Control Structure: Bicycle path closed starting December 1

Longueuil, November 30, 2016 – The Jacques Cartier and Champlain Bridges Incorporated (JCCBI) would like to advise users that the bicycle path on the Champlain Bridge Ice Control Structure will close on Thursday, December 1 at 10:00 p.m. as part of winter closures on the Parc Jean-Drapeau and seaway dike bicycle path network.

To analyze the feasibility of keeping the path open during the winter, the Corporation will assess maintenance costs and methods in winter 2017.

The bicycle path on the Champlain Bridge Ice Control Structure will reopen in spring 2017 when conditions allow. In the spring, a panoramic rest area will be created near the north approach (Île des Sœurs sector).

About JCCBI

As a manager of important infrastructure, The Jacques Cartier and Champlain Bridges Incorporated is a Crown corporation established in 1978 that is responsible for the Jacques Cartier Bridge, the Champlain Bridge, the Champlain Bridge Ice Control Structure, the Île des Sœurs Bypass Bridge, the federal sections of Bonaventure Expressway and the Honoré Mercier Bridge, as well as the Melocheville Tunnel. The Corporation manages, maintains, and repairs these important Greater Montreal structures to ensure the safe passage of thousands of users every day. It also ensures that these critical structures remain safe, fully functional and aesthetically pleasing both today and in the future. www.JacquesCartierChamplain.ca
